

# FAQS

## WHAT IS HOOK TIME?

Hook Time analysis is a unique feature of the 1Guava platform which provides unparalleled real-time monitoring of cranes and all operated plant equipment on-site. By gathering crucial data on the machinery's activity, such as the length of time it remains active or idle, you can effectively manage and schedule the use of your plant equipment, improve utilisation, avoid subcontractor conflicts and ensure your project stays on track.

## WHAT DO I NEED TO START COLLECTING THE DATA?

To initiate data collection using 1Guava's Hook Time feature, we will equip you with a tablet preloaded with the 1Guava app. This tablet should be conveniently mounted in the operator's cab to ensure optimal data collection. You can monitor activity effortlessly by accessing the 1Guava platform from your PC, laptop, or mobile device to review the data that is being recorded. Our tablets come with 4G connectivity, allowing for real-time data collection.

## IS 1GUAVA SAFE & SECURE?

Every account created on 1Guava has 2FA as a standard. That means even if a hacker has your credentials, they can't login into your accounts unless you authorise them. We provide the same level of protection as used by your online banking - 256 bit SSL(Secure Socket Layer).

# WHAT IS IGUAVA ?

IGuava is a platform to manage your site lifting plans while collecting the data to track progress and monitor plant equipment usage and contractor performance.

Increase the utilisation and productivity of your cranes and all construction plant on site.

Capture crane downtime (e.g. winded off) and compare allotted hook time with the actual crane usage.

Hook Time

Schedule daily sub-contractor time slots.

Speed up the signing process with our paperless solution.

Monitor allocations vs actual usage.

Reduce subcontractor disputes.

## OUR MISSION

Our mission is to make crane management easy, accessible, and affordable for anyone that owns cranes or utilises them. In other words - we want to free up your time so you can focus on what matters most.

## WHY CHOOSE IGUAVA?

IGuava unifies lifting teams on busy projects in real-time. Our platform delivers on-demand reporting systems to make sure project critical-paths are met in a few taps, as well as operations management and lift allocations to ensure your team knows exactly where to be at any given time.

## DATA PLANS
