

The Leader of the Pack.

As the inventor of the modern tower crane, WOLFFKRAN sets milestones in crane technology. A WOLFF is the logistics center of the construction site, created for economic and intelligent building.

An exciting opportunity has arisen. We are looking for a

FLEET MAINTENANCE MANAGER - WOLFFKRAN GROUP

located in Heilbronn/Germany or by arrangement.

Your Challenge

WOLFFKRAN is a dynamic and expanding company. In the last two years our team has almost doubled, and we are continuing to expand our leading position in crane technology in Europe. In your new position you are responsible for the development and implementation of the Company maintenance programme. This programme will encompass the requirements as stipulated by our third party suppliers and will be positively communicated to colleagues from the national companies. You will manage the implementation of the WOLFFKRAN Repair Facility in Germany and will be expected to be visible across all fixed facilities and key job sites across Europe.

Your Main Tasks

- Continuous further development and adaptation of the maintenance organisation to ensure right level of personnel across Europe
- Review of current maintenance practices and processes to increase overall efficiency. Best practice procedures and practices have to be included in the internal system and SAP
- Review of and recommendation for changes to the existing maintenance manuals
- Responsible for the department's investment planning and monitoring of repair budget targets
- Monitoring compliance with defined quality standards at the site via audit and document review
- Preventive and continuous improvement of maintenance and reduction of technical downtimes
- Identification of improvement potentials within the scope of internal and external maintenance processes as well as derivation and implementation of corresponding measures
- Regular performance of weak-point and potential analyses
- Preparation of maintenance plans
- Audit of the measures carried out in the individual national companies
- Implementation of suggestions for improvement
- Establish and operate the "WOLFFKRAN Repair Facility"

Your Profile

- Training in the technical industrial sector and knowledge in machine and plant engineering, ideally of tower cranes
- Rapid familiarisation with the WOLFFKRAN manuals and development of sound knowledge of product manuals and specialist manuals
- Many years of experience in the field of maintenance of construction equipment and machines
- SAP/R3 knowledge, CS/MM desirable
- Fluent in spoken and written English, knowledge of other languages is a plus
- Assertiveness at eye level and ability to work in a team
- Analytical and entrepreneurial thinking
- Organisational talent, reliability and good communication skills
- Willingness to travel and work away from base for more than 60%

Your Future Perspective within the WOLFF-Team

We offer an extraordinary challenging career opportunity with

- a competitive salary, retirement savings plan and
- a comprehensive benefits package

Your next Step

If you're ready to be challenged, we look forward to hearing from you. Please send your application with your resume, a brief introduction of your experiences and details on your salary expectations and availability to our HR department, Mrs. Gabriele Zada, g.zada@wolffkran.de. For first questions feel free to contact our European Operations Director, Mr. Dave Holder, P + 44 7718 679 643.
