WOLFFKRAN Ltd. equips rental fleet with air conditioning

Sheffield – August 2020. **WOLFFKRAN Ltd. announces to equip the rental crane fleet with air conditioning.**

All new cranes delivered to UK and Ireland rental projects have been equipped with air-conditioned cabins since 2019.

“We already have a large number of cranes with air conditioning and now pledge to commit to every crane going to site in future, meeting this standard,” says Julian Dyer, Sales Director at WOLFFKRAN Ltd. “This will mean that with a few exceptions, our fleet of rental cranes will have air-conditioned operator cabins by the end of 2021.”

WOLFFKRAN Ltd. has made this decision in response to operator concerns, in consideration of the health, safety and wellbeing of the staff and to combat increasingly frequent hot weather periods during the summer months.

“The commitment made by WOLFFKRAN shows the comfort and wellbeing of our operatives along with those who work with the WOLFF product is our priority,” Dyer adds.
